

To the FDA:

RE: DOCKET NO. 98N-1265

I send this letter as a consumer of healthcare services to register my concern and disapproval of the Memorandum of Understanding as published by the FDA on January 21, 1999.

In its present form, the MOU, as well as the Compounding Section 503A of the Modernization Act, severely restricts the rights of the physicians and patients to obtain healthcare products from the provider of their choice. It also infringes on the rights of compounding pharmacists to serve the public's medical needs. As a healthcare consumer, there should be no restrictions to the delivery of a compounded medication prescribed for me, regardless of where I may live or may travel. The MOU must be amended!

Comments:

For years I tried to take estrogen  
(PREMARIN) and stopped many times because  
it elevated my blood pressure. Also Provera  
gave me headaches so bad I couldn't take  
them + as a result hemorrhaged several  
times. THE COMPOUNDED MED. IS TRULY A BLESSING. NO SIDE EFFECTS
